

PARENT ZONE

FOCUS: GUIDE TO BEING A SOCCER PARENT

New to the world of club soccer? Never fear! Follow the WSC guide to being a soccer parent and you will take to it like a duck to water.

PLANNER

You will need to plan your life out. Being organized and knowing when & where practice and games are plus which car pool you are in and who's kids you are picking up will be vital information to know.

CHAIR

Being a soccer parent one of the best things you can by is a comfortable lawn chair. You will find this chair being your new best friend and it will save your legs a lot of aches and pains. Also it will prevent you from running up and down the sideline kicking every ball.

DUNKIN

Drop the players off at the game and go and find the nearest Dunkin to the field for your game day coffee. Be sure to find the nearest Dunkin to the teams practice location.

BLANKET

It can get cold at times when watching games so a nice big, warm blanket is a vital piece of kit for a soccer parent.

SMART PHONE

All soccer parents need a smart phone. Not only to take pictures and action video's of your child's big moment but to also get last minute updates on field changes, time changes, game cancellation via e-mail or text message.
