

REFUND POLICY

We ask families to check the Schedule page and make sure that they can commit to the programs they are signing up for because dropping out after the season begins can cause challenges for other players and families in the program. It's important to avoid these challenges whenever possible.

For example, we commit to a certain number of professional coaches or PreK thru 2nd Grade sessions based on our registration numbers. We commit to fielding a certain number of teams in BAYS (our league) for 3rd-8th graders months ahead of the beginning of the season based on registration numbers. If families drop out after we have made those commitments the club could wind up spending for coaching or sessions we do not need, or with inadequate numbers of players on the teams we have committed to field.

We understand that life can change, and that compassion can be warranted. The club grants refunds without question prior to the deadlines listed below, and families may apply for refunds after those deadlines if they believe circumstances warrant exceptions. The presumption will be, however, that withdrawals after these deadlines will not qualify for refunds.
